## Quality policy

Svenska Grindmatriser AB (SGA) is a fabless manufacturer of analog integrated circuits. Components from SGA are custom designed for their specific applications. This is what we call Specific Components. Our success relies on being the best to understand each customers application specific needs and to provide a long term supply of Specific Components.

- ❖ We offer an attractive, safe and well supported development and production flow together with a quality management system where continuous improvements ensure a satisfied customer and mutual profitability.
- ❖ We motivate our skilled personnel to continuously develop both themselves and our suppliers in order to meet and exceed expectations from the markets where we are present.
