## Certificate of compliance

SGA product declaration of non-use of banned substances

### **Restriction of Hazardous Substances (RoHS)**

SGA hereby confirm that all our components comply with EU Directive 2011/65/EU and Directive (EU) 2015/863 of 31 March 2015 amending Annex II to Directive 2011/65/EU unless exempted by regulation.

### **Registration, Evaluation, Authorisation, and restriction of Chemicals (REACH)**

SGA hereby confirm that all our components comply with the restriction of SVHC (Substances of Very High Concern) in Regulation EC/1907/2006 (REACH). This includes the new substances announced by ECHA on 17 January 2023.

### **Sourcing materials from Conflict Regions**

SGA is aware of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Wall Street Reform Act) requirements regarding the sourcing of metals (tin, tantalum, tungsten, gold) from conflict regions. SGA requests all our relevant suppliers to make sure that components supplied to us containing conflict minerals are DRC conflict free.

At this point in time, to the best of SGA's knowledge, SGA products do not use conflict minerals (3TG) that are sourced from mines that directly or indirectly finance or benefit armed groups in the DRC or adjoining countries.

The above declarations are valid for all SGA products unless explicitly noted in the product documentation. SGA is validating this document and the compliance on an annual basis.

Henrik Sjöberg, CEO
